

Erasmus Memories 2019/2020

UVMP in Kosice

Özgenur Özdemir

Ankara University Veterinary Faculty, Turkey

We came to Slovakia as two close friends. It started very shocking and exhausting. Kosice is small, quiet, peaceful city. They generally live in the morning (in winter especially, maybe because of cold ☺) It was very strange in the beginning because we are living in big city normally, but after a while we just enjoyed with the silence and peacefullness.

In first weeks we were really busy. We were trying to prepare documents, get used to new environment, dormitory, language. But it just passed very fast and i found myself within a group of foreign people from all over the Europe. It is great to have foreign classes and well english provided lessons in UVMP in Košice. We had very different classes so we met a lot of person. And especially practice lectures were great. We had great opportunity to do practice about every lectures that we took.

After classes we were trying to go almost all ESN events. They were really enjoyable. There was also a lot of enjoyable, talkative, funny foreigners. These few months really improved my talking skills both in language way and character.

ESN people helped us literally about everything. Especially *thanks to our buddy* Michaela Bednáriková. They helped about foreign police and residence permit and all that stuff. And our Erasmus coordinator Mario Segurado Benito, thank you for all your help. He is always interested to our questions and solve them. He always asks about how it is going.

Slovakia is a perfect country for travelling because it is in the middle of Europe. We travelled a lot during our Erasmus. Budapest is so near to Kosice. And you can go anywhere from Budapest. We were planning to travel more but Corona Virus came and all our plans cancelled. We had to go back to Turkey in the middle of spring semester. We are sorry about we couldn't say goodbye to anyone. It feels like incomplete Erasmus. But in general it was great Erasmus experience.

Everyone definitely should do Erasmus.

Goodbye Kosice,

Nasledujúca zastávka: Havlíčkova.
