

FIRE ALARM REGULATIONS FOR STUDENT DORMITORY

1. Duties of an employee who detected fire, the way and place for reporting the fire

The employee who detected fire is bound to extinguish it by available fire-extinguishing means and equipment. If he/she is unable to extinguish it by himself/herself using the available means, he/she is obliged to report the fire to the

FIRE REPORTING CENTRE personally, or by phone to :

Lodge of the dormitory Podhradová 11

 +421 915 986 909

Podhradová 13

 +421 915 986 910

Or directly to the Fire-alarm centre of the Fire and Rescue Department in Košice

 112, or 150

2. The way of announcing the fire-alarm for staff and the Fire-fighting watch.

A fire alarm is announced by the long uninterrupted tone of the interior siren after pressing the emergency button of the fire detector located on the corridor of the building.

3. The duties of employees after fire alarm announcement.

Upon announcement of fire alarm, the employees close doors and windows, turn off electric power and leave the workplace. When summoned by members of the Fire-fighting watch or chief of the fire-fighting crew, they personally contribute to extinguishing of the fire or evacuation of persons, animals or materials. On premises used for storage of pressure cylinders and flammable liquids it is necessary to arrange their potential transfer and storage outside the building.

4. Place and phone number of Fire reporting centre and Fire and Rescue Department.

Fire reporting centre for respective units of UVM is included in the article 1 of fire-alarm instructions
