	Prof. Ján Klimas, PharmD, PhD
	Prof. Alois Nečas, DVM, PhD, MBA
	Ľubomír Kráľ, DVM
	Prof. Pavol Sovák, RNDr., PhD
	Vasil' Šatník, PharmD, PhD
	Assoc. prof. David Vetchý, PharmD, Mgr., PhD

BOARD OF TRUSTEES OF THE UVMP IN KOŠICE

Chairman:	Ján Bílek, Ing., JUDr., Dr. h. c.
Vice-Chairman:	Dušan Gažovský, JUDr.
Members:	Stanislav Hreha, Ing., PhD
	Ján Király, Ing.
	Assoc. prof. Peter Korim, DVM, PhD
	Boleslav Lešo, DVM, PhD
	Miroslav Martinček, DVM
	Anna Ondová, DVM
	Helena Petrusová, Ing.
	Peter Pollák, Ing., PhD
	Richard Raši, MD, PhD, MPH
	Ladislav Stodola, DVM

ACADEMIC SENATE OF THE UVMP IN KOŠICE

Chairmanship:

Chairman: Prof. Slavomír Marcinčák, DVM, PhD
Vice-Chairman: Assoc.prof. Jana Koščová, DVM, PhD (Chairman of Employees Chamber)
Vice-Chairman: Adam Körösi (Chairman of Students Chamber)
Assistant secretary: Assoc. prof. Zuzana Kostecká, DVM, PhD

Employees chamber members

1. Ľubica Horňáková, DVM, PhD
2. Assoc. prof. Peter Korim, DVM, PhD
3. Assoc. prof. Zuzana Kostecká, DVM, PhD
4. Assoc.prof. Jana Koščová, DVM, PhD
5. Prof. Jaroslav Legáth, DVM, PhD
6. Prof. Slavomír Marcinčák, DVM, PhD
7. Prof. Pavol Mudroň, DVM, PhD, Dipl. ECBHM
8. Assoc.prof. Oskar Nagy, DVM, PhD, Dipl. ECBHM
9. Vladimír Petrilla, DVM, PhD
10. Prof. Eva Petrovová, DVM, PhD
11. Prof. Peter Popelka, DVM, PhD
12. Prof. Zuzana Ševčíková, DVM, PhD
13. Ľubomír Šmiga, DVM, PhD
14. Assoc. prof. Gabriela Štrkolcová, DVM, PhD
15. Prof. Igor Valocký, DVM, PhD
16. Lucia Váhovská, RNDr., PhD
17. Boris Vojtek, DVM, PhD
18. Assoc. prof. František Zigo, DVM, PhD

Students chamber members

1. Dominik Borčík
2. Nicol Brázdovičová
3. Timotej Drábek
4. David Frandel
5. Adam Körösi
6. Andrej Makiš, DVM
7. Miloš Marcinčák
8. Jakub Máčalka
9. Jana Morochovičová

COLLEGE OF THE RECTOR

Chairman: Prof. Jana Mojžišová, DVM, PhD, Dr. h. c.

Members: Andrea Eibenová, Mgr.
Assoc. prof. Jarmila Eftimová, Ing., PhD
Prof. Zita Faixová, DVM, PhD
Monika Fedorová, PharmD, PhD
Assoc. prof. Peter Korim, DVM, PhD
Assoc. prof. Zuzana Kostecká, DVM, PhD
Ľudmila Kundríková, PhDr.
Assoc. prof. Peter Lazár, DVM, PhD
Prof. Jaroslav Legáth, DVM, PhD
Prof. Slavomír Marcinčák, DVM, PhD

Ladislav Molnár, DVM, PhD
Prof. Pavol Mudroň, DVM, PhD, Dipl. ECBHM
Assoc. prof. Pavel Nad', DVM, PhD
Prof. Jozef Nagy, DVM, PhD
Prof. Anna Ondrejková, DVM, PhD
Prof. Juraj Pistl, DVM, PhD
Prof. Peter Reichel, DVM, PhD
Róbert Schréter, Ing., PhD
Assoc. prof. Drahomíra Sopková, DVM, PhD
Prof. Zuzana Ševčíková, DVM, PhD
Prof. Ľudmila Tkáčiková, DVM, PhD
Martin Tomko, DVM, PhD
Prof. Alexandra Trbolová, DVM, PhD
Prof. Igor Valocký, DVM, PhD
Tatiana Weissová, DVM, PhD

COLLEGE OF PHARMACY

Chairman: Prof. Jana Mojžišová, DVM, PhD, Dr. h. c.
Members: Assoc. prof. Katarína Beňová, DVM, PhD
Danica Bošanská, PharmD
Assoc. prof. Eva Čonková, DVM, PhD
Assoc. prof. Jarmila Eftimová, Ing., PhD
Prof. Zita Faixová, DVM, PhD
Monika Fedorová, PharmD, PhD
Michal Fehér, Mgr.
Assoc. prof. Alexander Hudák, RNDr., PhD
Assoc. prof. Peter Korim, DVM, PhD
Assoc. prof. Zuzana Kostecká, DVM, PhD
Prof. Ján Kyselovič, PharmD, PhD
Prof. Jaroslav Legáth, DVM, PhD
Prof. Ladislav Mirrossay, MD, DrSc., Dr. h. c.
Prof. Juraj Pistl, DVM, PhD
Assoc. prof. Anna Sobeková, Ing., PhD
Assoc. prof. Jana Staničová, RNDr., PhD
Martin Tomko, DVM, PhD
Martin Višňanský, PharmD, MBA, PhD, MSc.

Assoc. prof. Milan Žemlička, RNDr., PhD
Student's representative

COMMITTEES OF THE UVMP IN KOŠICE

Accreditation committee

Chairman: Prof. Zuzana Ševčíková, DVM, PhD
Assistant secretary: Róbert Schréter, Ing., PhD
Members: Assoc. prof. Mangesh Bhide, DVM, PhD
Danica Bošanská, PharmD
Prof. Juraj Koppel, DVM, DrSc.
Martin Mihály, DVM, PhD
Prof. Ladislav Mirrossay, MD, DrSc., Dr. h. c.

Anna Ondová, DVM
Assoc. prof. Milan Žemlička, RNDr., PhD
Marianna Kovaľová (student of the UVMP)
Júlia Margočová (student of the UVMP)

Disciplinary committee for employees

Chairman: Martin Tomko, DVM, PhD
Deputy: Prof. Alexandra Trbolová, DVM, PhD
Assistant secretary: Jana Szepesiová, JUDr.
Members: Viera Jančíková, JUDr.
Prof. Slavomír Marcinčák, DVM, PhD
Róbert Schréter, Ing., PhD
Prof. Michal Toropila, RNDr., PhD

Disciplinary committee for students

Chairman: Martin Tomko, DVM, PhD
Deputy: Prof. Juraj Pistl, DVM, PhD
Assistant secretary: Prof. Alexandra Trbolová, DVM, PhD
Members: Adam Körösi (student of the UVMP)
David Frandel (student of the UVMP)
Luca Kiss (student of the UVMP)

Editorial committee

Chairman: Martin Tomko, DVM, PhD
Deputy: Prof. Zita Faixová, DVM, PhD
Assistant secretary: Prof. Juraj Pistl, DVM, PhD
Members: Libuša Bodnárová, DVM
Assoc. prof. Peter Korim, DVM, PhD
Igor Michal'ov, Ing.
Marta Novysedláková, Mgr.
Assoc. prof. Marián Prokeš, DVM, PhD
Nikol Brázdovičová (student of the UVMP)

Ethical committee for handling animals

Chairman: Viola Štrompfová, DVM, DrSc.
Assistant secretary: Assoc. prof. Soňa Gancarčíková, DVM, PhD
Members: Assoc. prof. Peter Korim, DVM, PhD
Prof. Jana Kottferová, DVM, PhD
Assoc. prof. Daniela Takáčová, DVM, PhD
Assoc. prof. Juraj Toporčák, DVM, PhD
Zora Váradyová, DVM, PhD
Andrea Lauková, DVM, PhD

Finance and economic committee

Chairman: Prof. Jozef Nagy, DVM, PhD
Deputy: Róbert Schréter, Ing., PhD
Assistant secretary: Assoc. prof. Juraj Toporčák, DVM, PhD
Members: Jaroslav Hochmann, Mgr.
Vladimír Katona, Mgr.
Assoc. prof. Peter Korim, DVM, PhD
Silvia Hurtuková, PhDr.
Dagmar Pasterňaková, Ing.

Marián Pavľak, DVM
Jaroslav Soroka, DVM
Prof. Alexandra Trbolová, DVM, PhD

Committee for creation, modification and periodical evaluation of study programmes at the first level Animal Science and Veterinary Nurse and at the combined first and second levels General Veterinary Medicine

Chairman: Prof. Jana Mojžišová, DVM, PhD, Dr. h. c.
Members: Prof. Monica Fengsrud Brinchmann, Nord University, Faculty of Biosciences and Aquaculture
Assoc. prof. Ján Bílek, DVM, PhD
Renáta Božíková, Ing.
Prof. Zita Faixová, DVM, PhD
Assoc. prof. Peter Korim, DVM, PhD
Assoc. prof. Lenka Luptáková, DVM, PhD
Prof. Pavol Mudroň, DVM, PhD, Dipl. ECBHM
Michaela Paulíková, Ing.
Assoc. prof. Peter Popelka, DVM, PhD
Assoc. prof. Nad'a Sasáková, DVM, PhD
Prof. Miroslav Svoboda, DVM, PhD
Martin Tomko, DVM, PhD
Assoc. prof. Juraj Toporčák, DVM, PhD
Prof. Alexandra Trbolová, DVM, PhD
Tatiana Weisssová, DVM, PhD
Prof. Jozef Bíreš, DVM, DrSc. – external member
Ladislav Stodola, DVM – external member
Lenka Mičková – external member
Serena Faith Kishore Amrit (student of the UVMP)
Adam Körösi (student of the UVMP)

Committee for creation, modification and periodical evaluation of study programme at the combined first and second levels Pharmacy

Chairman: Prof. Ján Kyselovič, PharmD, PhD
Members: Renáta Božíková, Ing.
Prof. Zita Faixová, DVM, PhD
Monika Fedorová, PharmD, PhD
Assoc. prof. Peter Korim, DVM, PhD
Prof. Jaroslav Legáth, DVM, PhD
Assoc. prof. Anna Sobeková, Ing., PhD
Martin Tomko, DVM, PhD
Martin Višňanský, PharmD, MSc., PhD, MBA
Tomáš Wolaschka, PharmD, PhD
Ondrej Sukeľ, PharmD, PhD – external member
Prof. Pavel Mučaji, PharmD, PhD – external member
Prof. Ján Mojžiš, DVM, DrSc. – external member
Assoc. prof. Aleš Franc, PharmD, ThD, Mgr., PhD – external member
Daniela Mikulová (student of the UVMP)
Viktória Moravcová (student of the UVMP)

Committee for creation, modification and periodical evaluation of study programmes at the first level Safety of Feeds and Foodstuffs and Family Farmer, at the second level Market and Quality of Foodstuffs and at the combined first and second levels Food Hygiene

Chairman: Prof. Slavomír Marcinčák, DVM, PhD
Members: Renáta Božíková, Ing.
Assoc. prof. Eva Dudříková, DVM, PhD
Prof. Róbert Herich, DVM, PhD
Pavína Jevinová, DVM, PhD
Assoc. prof. Peter Korim, DVM, PhD
Assoc. prof. Ivona Kožárová, DVM, PhD
Andrej Marcin, DVM, PhD
Prof. Jana Mojžišová, DVM, PhD, Dr. h. c.
Prof. Pavol Mudroň, DVM, PhD, Dipl. ECBHM
Assoc. prof. Pavel Nad', DVM, PhD
Prof. Jozef Nagy, DVM, PhD
Assoc. prof. Monika Pipová, DVM, PhD
Prof. Peter Popelka, DVM, PhD
Assoc. prof. Marcel Falis, DVM, PhD
Martin Tomko, DVM, PhD
Gabriela Gadúsová, DVM – external member
Marek Hudák, DVM – external member
Adrián Kačmár, DVM – external member
Jaroslav Karahuta, DVM – external member
Patrik Keľo, DVM – external member
Marián Kohút, Ing. – external member
Slavomír Reľovský, Ing. – external member

First retake term Contagious diseases,...*	February 27 – 28, 2023
Contagious diseases, protection of environment and veterinary legislation	June 7, 2023 – June 9, 2023
Food hygiene, safety and quality	July 6, 2023 – July 14, 2023
Other retake terms:* August 2023	

State exams for the 6th year students

	Nov. 14 – Nov. 18, 2022	Dec. 5 – Dec. 9, 2022	Mar. 22 – Mar. 24, 2023	May 15 – May 19, 2023
Diseases of ruminants	group 1	group 4	group 3	group 2
Diseases of pigs	group 2	group 3	group 4	group 1
Diseases of small animals	group 3	group 2	group 1	group 4
Diseases of horses	group 4	group 1	group 2	group 3

First retake terms:* January 16 – 19, 2023; April 20 – 25, 2023; June 22 – 23, 2023

Second retake terms:* April 20 – 25, 2023; June 22 – 23, 2023; August 30, 2023

* Date of the first and second retake term depends on the date when the regular or first retake term was taken. In line with the valid UVMP Study guidelines, students who failed at or did not arrive to (without any excuse) the regular term, may retake such state examination upon a written request, with the date of the retake being no sooner than one month after the regular term. In case of the second retake term, the date cannot be sooner than two months after the first retake term.

Diploma thesis and Bachelor thesis submission April 12, 2023

Diploma thesis defense May 29, 2023 – June 2, 2023

Bachelor thesis defense/State exam for 3rd year JSP June 5, 2023 – June 8, 2023

First retake term:* July 10, 2023

Schedule of professional and clinical experience

4 th year GVM	80 hours	Extramural practice (June – August 2021)
5 th year GVM	80 hours	Extramural practice (June – August 2021)
5 th year GVM	60 hours	Clinic of birds, exotic and free living animals
	40 hours	Small animal clinic
	10 hours	Clinic of horses
	30 hours	Clinic of ruminants
6 th year GVM	80 hours	Small animal clinic
	80 hours	Clinic of horses
	60 hours	Clinic of ruminants
	60 hours	Clinic of pigs

Year tutors

Study programme General Veterinary Medicine

1 st year GVM	Assoc. prof. Katarína Holovská, DVM, PhD Department of Morphological Disciplines
2 nd year GVM	Assoc. prof. Katarína Vdoviaková, DVM, PhD Department of Morphological Disciplines
3 rd year GVM	Assoc. prof. Radoslava Vlčková, DVM, PhD Department of Biology and Physiology
4 th year GVM	Assoc. prof. Jana Koščová, DVM, PhD Department of Microbiology and Immunology
5 th year GVM	Monika Drážovská, DVM, PhD Department of Epizootiology, Parasitology and Protection of One Health
6 th year GVM	Assoc. prof. Lenka Luptáková, DVM, PhD Department of Biology and Physiology

Joint study programme Animal Science

2 nd year JSP	Zuzana Farkašová, DVM, PhD Department of Animal Nutrition and Husbandry
3 rd year JSP	Assoc. prof. Gabriela Štrkolcová, DVM, PhD Department of Epizootiology, Parasitology and Protection of One Health

Tuition and study related fees

Tuition fees

Registration for the academic year is conditional upon the proof of payment of the university fees – tuition and other study related fees. Payment can be made by bank transfer (draft) or by cash at the university cash desk. Proof of the payment should take the form of a payment certificate.

Bank details:

Štátna pokladnica

Radlinského 32

810 05 Bratislava 15, Slovakia

Account number: 7000072188/8180

IBAN: SK71 8180 0000 0070 0007 2188

S.W.I.F.T.: SPSRSKBA

Study related fees

<i>Fees concerning the entrance exams</i>	
Application fee to the combined first and second level of higher education	50 EUR
Application fee to the third level of higher education	30 EUR
Additional entries of missing information to the application form	10 EUR

<i>Fees concerning the study</i>	
Student's identity card with ISIC licence	21 EUR
Student's identity card renewal (ISIC licence + TransData, public transport)	13 EUR
Transcript of study records for undergraduate students	10 EUR
Transcript of study records and/or study confirmation letters for graduates	50 EUR
Record book of clinical and professional practice	full price
Insurance	3 EUR
Making changes in the student's registration form outside the time frame intervals	10 EUR
Registration fee for newly accepted students	200 EUR
Registration fee for the following year of study	5 EUR

<i>Fees concerning the duplicates</i>	
Duplicate of Diploma	35 EUR
Duplicate of bilingual Diploma	70 EUR
Duplicate of Certification of the State exams	35 EUR
Duplicate of Supplement to the Diploma	35 EUR
Duplicate of student's identity card with ISIC licence (due to loss, damage, etc.)	17 EUR
Duplicate of student's identity card with ISIC licence (due to theft, upon confirmation from the police department)	11 EUR

Insurance

Each student has to arrange a private medical insurance either in their home country or in the Slovak Republic.

Accommodation

Accommodation is available in the Student dormitory for each student on request. The dormitory is located at the distance of approximately 400 – 500 meters from the campus. Students may have a private phone installed in his/her room for a nominal fee, plus the phone bill. Telephone bills are not included in the accommodation fee. Both must be paid monthly. Meals are being served in the Student canteen.

Conditions for completion of study with honours and Rector's Award

Students will **graduate with honours** if they fulfill all of the following conditions:

- a) average result during the entire study equal to or better than 1.50;
- b) state examinations passed on regular dates with grades (*"A"*) *excellent* or (*"B"*) *very good*.

Student's entitlement to *graduate with honours* ceases to exist if during the entire study, they passed exam in any subject on the third retake date or they were repeatedly registered for a compulsory subject.

Graduates will be awarded with **Rector's Award** if they fulfill all of the following conditions:

- a) average result during the entire study equal to or better than 1.20;
- b) met all requirements for graduating with honours;
- c) grades (*"D"*) *satisfactory* or (*"E"*) *sufficient* not received on any subject.

Professional and clinical experience

Professional experience

Completion of 80 hours under supervision of private veterinary surgeons after the 4th and 5th year of study outside the UVMP in Košice, in the Slovak Republic or abroad.. The experience has to be completed by the end of academic year (i.e. no later than by August 31).

During the practice, students should get acquainted with the administration of private veterinary activities (keeping records of preventive activities and interventions, prescriptions, using and dispensing veterinary pharmaceuticals) and with performance of professional activities (diagnostic, preventive and therapeutic procedures within the field and outpatient practice) in agreement with the legislative provisions of the respective country.

Conditions, organisation and acquirement of professional experience are arranged individually by the student of the UVMP.

Clinical experience

Specified number of hours is designated for the student's clinical experience in the 5th and 6th year of study within the prescribed teaching hours. Clinical experience is organized by clinics of the UVMP and teachers in the chosen clinic.

Conditions, organisation and acquirement of clinical experience are arranged by the respective clinics of the UVMP.

Record book of clinical and professional practice

Record book of clinical and professional practice is document containing the records of experience, traineeships and performed activities of the student, completed during his/her study. Record book is issued by the UVMP in Košice and students are obliged to obtain it before completion of their first prescribed practice (in the 4th year of study). Students have to keep the record book accurate and up to date during the rest of their studies.

Before the graduation, the record book must be submitted to the Study Office and kept archived in the student's personal file.

STUDY PLANS

THE UNIVERSITY OF VETERINARY MEDICINE AND PHARMACY IN KOŠICE

Explanatory notes:

WS – winter semester

SS – spring semester

CS – compulsory subject

COS – compulsory optional subject

OS – optional subject

P – profile subject

c – credit

e – exam

SE – state exam

* – subjects which pregnant students may not attend

Study programme General Veterinary Medicine (GVM)

General Veterinary Medicine

1st year of study

STUDY PLANS

THE UNIVERSITY OF VETERINARY MEDICINE AND PHARMACY IN KOŠICE SLOVAK REPUBLIC and NORD UNIVERSITY NORWAY

Explanatory notes:

WS – winter semester

SS – spring semester

CS – compulsory subject

COS – compulsory optional subject

OS – optional subject

P – profile subject

c – credit

e – exam

SE – state exam

* – subjects which pregnant students may not attend

Joint study programme Animal Science

1st year of study – Nord University

JSP Animal Science

PROFILE OF THE STUDY PROGRAMME AND PROFESSIONAL ORIENTATION OF THE GRADUATE

PROFILE OF GENERAL VETERINARY MEDICINE STUDY PROGRAMME

Profile of the graduate of the General Veterinary Medicine study programme is formed during a study, in particular, on professional activities in the field of state administration, the Chamber of Veterinary Surgeons as a private veterinarian, in laboratory practice, the private sphere of agriculture, food, pharmacy, education, scientific research and environmental protection.

The study plan is compiled in accordance with Directive 2005/36/EC of the European Parliament and Council on the recognition of professional qualifications (formerly EU-78/1026/EEC and 78/1027/EEC for so-called regulated professions).

In the first years of study in theoretical and preclinical disciplines the student acquires knowledge of the biological laws of living nature in relation to veterinary medicine, he learns about the issues of living matter in broader contexts with respect to the ecosystem and their mutual interaction. The aim of this study is the knowledge of biochemical processes in complex with physiology of organs and systems of microorganisms and macroorganisms with differences in individual animal species.

Basic knowledge is applied in the study of subjects, which are focused on the health and hygiene issues of animal breeding. For medical work he draws knowledge mainly from the fields of anatomy, histology, nutrition and dietetics, physiology and pathological physiology, as well as pharmacology, toxicology, laboratory and clinical diagnostics. For application in practice serves theoretical and practical training in vocational subjects in the veterinary and therapeutic fields, but particularly preventive sphere, with a focus on environmental protection, ecology and production of safe and healthy food and products of animal origin. Graduate is ready to deal with wasteless technologies, the options of harmless disposal of waste, or their further use. Knowledge of residual substances and their impact on the quality of products and food of animal origin within the food chain will be used to protect animal health and the environment with a direct impact on human health.

Priority of the study is theoretical and practical training in specialized clinical subjects following different animal species from the aspect of internal, infectious, invasive and toxic diseases, metabolism disorders and organism damage by radiation and other adverse environmental influences.

During his studies, graduate acquires knowledge of diseases common for humans and animals, thus contributing to the protection of human health and the reduced occurrence of zoonoses in the human population.

Part of the study is the teaching of food hygiene subjects, which enables the graduate to supervise the hygiene of food production and supervise the protection of state borders from the veterinary and hygienic aspect.

The study plan is designed to allow the graduate to practice in agriculture sector and to continue to acquire further professional knowledge in postgraduate study.

Professional orientation of the graduate

Preparation of graduates of the mentioned study branch is aimed on implementation of the professional orientation and proving that the graduate is fully competent:

- to perform veterinary inspection, solve and arrange elimination of shortcomings discovered in the sphere of state veterinary administration,
- to perform inspection in import, export and transport of animals, animal products and foodstuffs in accordance with the current legislation,
- to determine conditions regarding use of feedstuffs and check their observation,
- to perform inspection in import and export of food and biological products,

- to perform slaughter inspection of animals and meat as well as of additional animal products and to decide about their transport and use,
- to perform epidemiological and epizootic activities in veterinary and health institutions,
- to develop emergency plans, preventive and control measures in case of occurrence of diseases included in the international O.I.E. classification on A, B lists and of other diseases,
- to develop preventive and control measures including complex sanitation in case of infectious and invasive diseases in animal breeding,
- to monitor diseases involving natural foci and to perform measures focused on protection of human health and the environment,
- to perform complete laboratory diagnostics of infectious, invasive and productive diseases complying with current requirements on laboratory methods,
- to plan, organise, control and perform specific activities related to protection and management of the environment,
- to work in the sphere of primary animal production and in plants producing food and feed stuffs,
- to fulfil tasks associated with leading positions in animal production and in plants processing raw materials of animal origin,
- to occupy different positions in hygienic, epidemiological, inspection, control and laboratory activities, to carry out scientific, advisory and expertise activities,
- to work as a private veterinary doctor in the diagnostic, therapeutic, consultative and prevention spheres related to diseases of farm, domestic and exotic animals (local veterinary doctor in veterinary ambulances, clinics, etc.),
- to work in production, research, development and distribution of bio-preparations, medicines, diagnostics, and veterinary tools
- to work as a research worker in scientific and development institutions of medical orientation in educational sphere and agriculture,
- to get a teaching position in secondary schools, technical schools and universities,
- to work in EU countries and other countries of the world.

PROFILE OF VETERINARY NURSE STUDY PROGRAMME

Studying in the Veterinary Nurse study programme is aimed at acquiring knowledge in the field of intensive care for companion animals. Student acquires basic knowledge in the field of pathological changes in deceased animals, becomes familiar with necrobiotic processes in the body, recognizes acute and chronic inflammations and the possibilities of their healing through regeneration and repair, has knowledge of the characteristics of tumors, developmental anomalies and immune disorders, is able to interpret pathogenetic mechanisms in connection with disease processes, has knowledge of investigative diagnostic methods, has basic knowledge of parasitic and infectious diseases of companion animals, manages veterinary reception and first contact with patients and clients. Student acquires ambulatory laboratory techniques, keeping records and management of therapy for individual diseases, knowledge of preventive veterinary health programmes for puppies, adults and aging patients and patients with special needs, acquires knowledge of the management of care for handicapped, abandoned and zoo animals and gains basic knowledge about management of care for hospitalized patients.

Professional orientation of the graduate

A graduate of the Veterinary Nurse study programme can work as an assistant in veterinary practice, in the teaching process, in animal protection organizations, as an animal charity worker (shelters and quarantine stations), for the pharmaceutical industry, for a veterinary publishing house, as an expert in animal nutrition, in the fields of physiotherapy and animal rehabilitation, animal care inspector, as a scientist,

trainer for companion animals, sales representative of diets for companion animals, as a laboratory technician for animals, rescue worker, consultant in animal husbandry and zoos, etc.

PROFILE OF ANIMAL SCIENCE JOINT BACHELOR STUDY PROGRAMME

Bachelor programme of Animal Science is a joint study programme of the University of Veterinary Medicine and Pharmacy in Košice and Nord University in Bodø, Norway. The first year of study of three-year programme includes study of chemistry and biophysics, ecology and biodiversity, aquaculture, zoophysiology, genetics and evolution, biochemistry and cell biology. The second year of study is focused on microbiology, histology and embryology, physiology, Latin terminology, veterinary ethics, animal husbandry and veterinary anatomy and histology. Last year introduces students to veterinary medicine by study of veterinary clinical sciences, animal nutrition, animal hygiene, introduction to veterinary epizootology and pharmacology, preventive veterinary medicine, fish farming, food safety and biomedical statistics and informatics.

Graduates of Animal Science study programme acquire knowledge of the biological laws of living nature in relation to veterinary medicine, he learns about the issues of living matter in broader contexts with respect to the ecosystem and their mutual interaction. The aim of this study is the knowledge of biochemical processes in complex with physiology of organs and systems of microorganisms and macroorganisms with differences in individual animal species. Graduates have a broad understanding of the structure and physiology of domestic animals, understand the basic principles of pathogenesis, diagnosis and treatment of common diseases of domestic animals, they are familiar with the research and development in the field of animal science, they have knowledge of the historical development, traditions and societal relevance of animal husbandry and veterinary medicine and they know how to update their own knowledge on the care, health and welfare of domestic animals.

Graduates of joint bachelor study programme, after obtaining the bachelor degree in Animal Science, have acquired theoretical and practical knowledge based on current knowledge of science, and mastered their use in the execution of their profession in private veterinary sector, in the field of food safety or in consultancy, research and teaching area or in further university studies in the field of veterinary medicine doctoral degree or master's degrees in biology and aquaculture.

Graduates acquire the ability to

- apply appropriate routine diagnostic methods and tools used in veterinary medicine,
- assess their own performance and outcomes of events, make changes to their practice under supervision,
- efficiently collect and critically analyze various sources of information and distinguish between various forms of bias and use it to solve professional problems,
- use appropriate tools and techniques for effective communication with experts in similar professional field,
- understand the legal and ethical responsibility towards the welfare of domestic animals and public health,
- solve professional problems in farming and animal husbandry, individually and as a team member,
- communicate theories and opinions in a manner that promotes the development of good practice,
- apply scientific methods in veterinary medicine.

SPECIAL INTEREST CLUBS

Cynological club UVMP

Cynological club brings together students who are dedicated to training staff dogs. They actively participate in competitions and prepare their dogs for performance tests. Many are also dedicated to dog breeding and successfully represent UVMP at exhibitions. Every year they organize a race for the Rector's cup. Training is conducted at the training area Anička or at the UVMP cynological complex Za haťou.

Tutor: Renáta Karolová, Ing.

Contact: kk@uvlf.sk

Hunting cynology club

Club brings together students who are dedicated to training hunting dog breeds. Training is conducted at the UVMP cynological complex Za haťou. They cooperate with University Facility for Breeding and Diseases of Game, Fish and Bees in Rozhanovce.

Tutor: Assoc. prof. Peter Lazár, DVM, PhD

Contact: kpk@uvlf.sk

Cynological club DARCO

DARCO is a club of dog trainers, breeders and owners of various breeds and crossbreeds, with a focus on training in agility, dogdancing, obedience, canistherapy and rescue work

Tutor: Assoc. prof. Ján Čurlík, DVM, PhD

Contact: kkdarco@uvlf.sk

AQUA TERRA club

Students working in Aqua Terra (AT) club are dedicated to breeding exotic fish, reptiles and amphibians. In addition to aquariums and terrariums with many rare species, there is also breeding of mice, guinea pigs and crickets. Membership in AT club brings students unique opportunity to learn many things about breeding and fixation, but also about diseases of exotic animals.

Tutor: Vladimír Petrilla, DVM, PhD; Miloš Halán, DVM, PhD

Contact: aquaterra@uvlf.sk

Falconry and raptor rehabilitation club

Falconry and raptor rehabilitation club is a club of breeders and trainers of birds of prey. The primary objective of the club is to create conditions and provide care for disabled and rehabilitated birds of prey that come to clinics and chain of rehabilitation stations in Slovak Republic. Clinical treatment is carried out as a part of practical clinical experience, which increases its attractiveness; students participate in national and international activities.

Tutor: Ladislav Molnár, DVM, PhD

Contact: ksrd@uvlf.sk

Small mammal and exotic bird breeders club

Club is a club of breeders and owners of small mammals and exotic birds. Club fulfils its mission by developing and improving relationship to breeding, animal ethology or anatomy knowledge, by supporting professional development of its members through contact with common diseases of small animals and their therapy, by cooperation with experts in the field, and by implementation of temporary care for homeless animals.

Tutor: Edina Sesztáková, DVM, PhD

Contact: kchmcev@uvlf.sk

Breeders club

Breeders club brings together people interested in husbandry, breeding and exhibiting of rabbits, pigeons, fowls and small rodents with a certificate of origin. Its mission is to create and enhance relationship to husbandry, breeding and knowledge of breeds of rabbits, pigeons, fowls and small rodents.

Tutor: Assoc. prof. František Zigo, DVM, PhD

Contact: chk@uvlf.sk

Flora club

Members of Flora club are dedicated to cultivation of medicinal, decorative and exotic plants.

Tutor: Assoc. prof. Jarmila Eftimová, Ing., PhD

Contact: fk@uvlf.sk

Mineralogy club

Mineralogy club is a club of students interested in mineralogy, paleontology, geology, collecting of minerals and fossils in the field and subsequent cleaning, archiving and exhibiting minerals in the UVMP collection.

Tutor: Prof. Michal Toropila, RNDr., PhD

Contact: mk@uvlf.sk

Bee breeders club

Club brings together breeders of bees and other beneficial insects (solitary bees and bumblebees). Club fulfils its mission by developing and improving relationship to breeding of bees and other beneficial insects, to bee products, by building relationship to the nature and by promoting ecological approach to bee breeding.

Tutor: Rastislav Sabo, DVM, PhD

Contact: vk@uvlf.sk

Hygiena Alimentorum club

Club brings together students of all study programs interested in fulfilment of the following club mission: to provide practical demonstrations and support of pedagogical process in focusing on food hygiene, to promote the interest about food hygiene and quality, to organize professional lectures, workshops, and the education of food products and their quality, and to help in the development of public life and other forms of health. Club also cooperates with organizations involved in the food processing and production of animal and plant origin.

Tutor: Boris Semjon, DVM, PhD

Contact: kha@uvlf.sk

Cat care club

The Cat Care Club provides a space for growth of a community of cat welfare advocates. The club fulfills this mission by providing opportunities for club members' complementary education in the field of therapy, management and welfare of domestic cats; communicating knowledge on cat care to UVMP students and staff, and to general public; collaborating with volunteering organisations helping cats; and participating in the university's research activities in the areas of feline medicine and welfare.

Tutor: Noema Gajdoš Kmecová, DVM, PhD

Contact: kha@uvlf.sk

IVSA – International Veterinary Students’ Association

The International Veterinary Students’ Association (IVSA) is a non-profit organization run by volunteer veterinary students that was founded in 1953.

The mission of IVSA is *“To benefit the animals and people of the world by harnessing the potential and dedication of veterinary students to promote the international application of veterinary skills, education and knowledge.”* IVSA helps to expand the worldwide collaboration of over thirty thousand students, enriching their student experience and improving their skills as future veterinarians. The way in which this is achieved is by arranging annual meetings (congresses and symposia), facilitating exchanges between our members and many projects and educational opportunities focusing on animal welfare, one health, education, soft skills and wellness.

IVSA allows students of the UVMP to acquire professional experience abroad, organizes group exchanges with foreign veterinary universities, informs about international events in other countries, provides participation of UVMP students at student congresses and symposia, and is involved in organization of social and sporting events at the UVMP campus.

Tutor: Monika Drážovská, DVM, PhD

Contact: ivsasko@uvlf.sk

Association of Norwegian Students Abroad (ANSA)

ANSA Košice is a local team of organization ANSA, which is an Association of Norwegian Students Abroad. Here in Košice, members are mostly veterinary students studying at UVMP but also an increasing number of Norwegian medicine students studying in Košice. This organization is here to help its members when needed, for example in case of emergencies, consultations about legal rights or insurance, or just being someone to talk to. The local team, among other social events where students can come together, also arranges events like celebration of Norway's constitution day or the traditional “julebord”.

Contact: kosice@ansa.no

ARDO – UVMP student’s magazine

Student’s magazine was published for the first time in 2010. Behind its origin stands enthusiasm of students who felt an absence of media, which would address students of all study programmes of our university. Paper version of the magazine has proved to be still the most interesting form of communication with the general public readership. The magazine is published twice a semester.

Contact: ardo.redakcia@uvlf.sk

Sports

“Slávia” UVMP club has basketball, volleyball, water polo, karate and canoeing teams. The Riding Club has also a long tradition. Riding and show-jumping are the main activities.
