

To the attention of all students of our university!

From September 21st 2020 to October 31st 2020, you have a unique opportunity to fill in the questionnaire *"Assessment of the teacher and the subject by students"* for the academic year 2019/2020 anonymously via AIS.

Quality of the teaching process and teachers can be evaluated only by you – students who participated in the teaching. Take this opportunity and express your opinion, praise and suggestions for improving the teaching process at UVMP in Košice. Give us your feedback and help the university improve and move forward. Give us your feedback and help yourself and your colleagues.

According to the Higher Education Act, at least once a year, each student has a right to comment on the quality of teaching and teachers at his/her school in the form of an anonymous questionnaire. Use this right and do not miss the offered opportunity.

Take the time to log in to AIS, read the manual on how to complete the questionnaire *"Assessment of the teacher and the subject by students"* and give us your feedback!
