

AniCura Veterinary Graduate Programme

For a lifelong successful career as a veterinarian.

Welcome to the AniCura Graduate Programme – an immersive two year development programme offering a practical and comprehensive transition from university to rewarding work in practice. We are keen on giving all our new veterinarians a chance of the best start possible in their professional careers with a smooth transition from studies to work life. While working at AniCura and participating in the programme, you'll develop both your clinical and professional skills with practice based mentoring and support.

What you can expect from the Graduate Programme:

- 2-year programme offering a smooth transition for newly graduated veterinarians from university to the workplace
- Taking a permanent full time position within AniCura, where you get time off work for the programme
- You will get a market competitive salary
- All costs for the programme will be covered by AniCura
- Each graduate is given a mentor at your clinic

- Monthly webinars with a specialist on selected medical topics
- Opportunity to get an insight into specific medical topics to spark interest for a potential career pathway in the future
- AniCura is part of the Mars family – the worlds largest employer for veterinarians with clinics and hospitals across Europe, UK, US and Asia.
