

# UNIVERSITY OF VETERINARY MEDICINE AND PHARMACY IN KOŠICE

## Guest Lecture Series

Supported by Bioveta, a. s., a leading veterinary pharmaceutical company from the Czech Republic

**11 November 2025 (Tuesday)**

**University of Veterinary Medicine and Pharmacy in Košice (VÚ Košice)**

**10:00 AM**    **Prevention Matters: Protecting Dogs and Cats from Infectious Diseases**  
(Lecture in Czech)

This session will focus on the importance of disease prevention in companion animals. It will explore the principles and perspectives of vaccination, effective client communication, and the practical application of current vaccination guidelines.

**12:00 PM**    **New Variants, New Challenges: The Power of Vaccination Against Canine Parvovirus**  
(Lecture in English)

This lecture will provide an in-depth look at protecting young dogs from emerging parvovirus variants. Key immunological principles, critical vaccination protocols, and real clinical case analyses demonstrating the impact of proper preventive care will be discussed.

Speaker:

**Karel Paukner, DVM, BSc, PhD**

**Veterinary Professional Services, Companion Animal – Bioveta**

**bioveta**

Karel earned his Bachelor's degree in Biological Sciences in 2013 from Charles University in Prague, his Doctor of Veterinary Medicine in 2018 from VETUNI in Brno, and his PhD in 2024 from VETUNI, Brno. He began his career as a clinician and lecturer at a university referral clinic for small animals, where he also completed his PhD. During his studies, he spent time at Iowa State University in the USA, further expanding his expertise in veterinary medicine. Since 2024, he has worked with Bioveta as a Technical Services Veterinarian, providing expert support to Bioveta's global network of clients.
